**To whom it may concern**

**Re: Installation of Science Labs to the New Build at Carmel College June/July 2009**

I am writing to express some thoughts on our new Science suite of nine labs and a prep room now that we have had them in use for a few weeks. We are delighted with them! The design, layout and overall quality of the rooms has been remarked upon by the Governors, the Teaching Staff and the students.

The advice on the choice of stools was a good one, staff and students agree they are the best they have ever used.

From my point of view can I say that working with S+B was a stress free experience, which has not been the case with some of the suppliers I have had to deal with. I know that the contractors who managed the actual build contract on our behalf were very happy with the service S+B provided, they were impressed with the project management.

On behalf of the College I would like to thank all those at S+B for the service provided.
