### 1. About this policy

- 1.1 We recognise our responsibility to prevent pollution in all parts of our operations, safeguard the environment and take positive steps to minimise the environmental impacts of our operations.
- 1.2 We aim to comply with applicable legislation, regulations and industry codes of practice, and seek to implement good practice.

### 2. Aims

- 2.1 To operate an environmental management system (EMS) throughout the organisation
- 2.2 To use energy and water efficiently and optimise our use of natural resources. To minimise the volume of waste deposited to landfill by re-using and recycling materials wherever possible.
- 2.3 To encourage modes of transport, which minimise environmental impact, ensure that our staff are aware of efficient driving and examine the operation of our vehicles.
- 2.4 To ensure that our staff are aware of relevant environmental issues, and of their own roles and responsibilities in delivering the overall programme and providing training for those with particular responsibilities.
- 2.5 To ensure that our key suppliers and contractors are aware of our policy and that wherever possible, they operate to similar standards, as a minimum.
- 2.6 To continue to provide support for sustainability initiatives that contribute towards the preservation or enhancement of the quality of life in the communities in which we operate.
- 2.7 To regularly monitor, audit and review our environmental program to ensure continuous improvement, and identify examples of best practice that may be shared throughout the Company.

### 3. Responsibilities

- 3.1 We will ensure that resources are available to enable us to achieve our objectives and targets.
